

# DARWIL

SWISS MADE

Thank you for choosing Darwil, a truly fine Swiss Made watch. Your watch has been manufactured with the highest standards of precision and reliability.

## Warranty Time

Each Darwil watch is marked with an individual serial number, which provides a record of origin and authenticity. Additionally, Darwil watch is warrant against any genuine manufacturing defects for two (2) years from the date of purchase. You may acquire additional two (2) years by becoming a Darwil member and register your warranty on our official website ([www.darwil.ch](http://www.darwil.ch)).

## Warranty Limitation

Please note that the warranty is only valid if it is accompanied with the International Warranty card. The warranty card must be completed in every part and signed by the authorized Darwil retailer where you have purchased your watch, date of purchase and stamp of the retailer. The warranty does not cover the case, crystal, bracelet or buckle or any damages caused by accident, mishandling, negligence or improper use as normal wear and tear or aging. Any repair or maintenance work carried by an unauthorized person shall automatically make this warranty null and void.

**Your attention is drawn expressly to the fact that Darwil watches are not suitable for wearing while practicing extreme sports.**

A fee will apply for repair beyond warranty coverage.

## Watch Setting

Coral Marine – W105SUU, W105SRW, W105STT, W105SBW

SW200 – 38 Hours Power Reserve, 26 Jewels

Position 0: Manual winding, turn the crown clockwise (forward) only.

Position 1: Quick date setting, turn the crown clockwise (forward) to adjust the date.

Position 2: Time setting, turn the crown clockwise (forward) or counter-clockwise (backward) to adjust the time. The date will advance automatically at midnight.

**Important Note:** Do not make any adjustments when your watch shows a time between 8:00pm to 4:00am. During this time slot, several complex operations take place and any outside interference may damage the movement.
